

'Talk About It' is the nation's first and only anonymous online messaging and emergency notification service for schools.

POWERED BY ANCOMM

AnComm Company Overview

Developed by AnComm, 'Talk About It' is the nation's first and only anonymous online messaging and emergency notification service for schools. Easy-to-use and implement, 'Talk About It' is a preventative solution focused on bridging the communication gap between students and faculty to foster a safer, more comfortable learning environment.

For students, 'Talk About It' serves as an 'icebreaker' giving teens a familiar form – the Internet – to reach out to counselors and communicate their own problems or the troubles of other schoolmates and peers, breaking the prevalent 'code of silence' through anonymous communication.

For school administrators, 'Talk About It' empowers faculty with an 'early warning system' so that they may proactively communicate, intervene and resolve school violence *before* it can occur.

Today, thousands of students in more than 100 elementary, middle and high schools across the United States rely on AnComm's 'Talk About It' to report problems and incidents ranging from bullying, gangs, threats of violence and cheating to drug and alcohol abuse, pregnancy, depression, stress, physical abuse, self-mutilation, sexual harassment and date rape.
